

**Ten Weeks to Financial Awakening:**  
**A Guidebook to the Creation of Your Own Financial Plan**  
**Using Quicken® Software**

**Book Addendum**

Release Date: April 6, 2009

**Suggestions Regarding this Addendum**

This Addendum provides critical update information that will update financial and technical information that has changed since release in October, 2003.

Please refer to this Chart as you proceed through the Guidebook. Place an “x” in the “Update” column when you have either copied the “Update” into the book, or entered the Addendum # into the book if you prefer not to copy the update. If you choose this latter approach, you can simply refer back to the Update Document when you encounter the Addendum # in the margin.

Please 3-hole punch this Addendum and place it in front of Divider 1 in your “My Financial Education Binder.” If you have not yet setup this binder, I suggest you simply staple these update pages together and insert them in a manila folder labeled “TEN WEEKS 2009 Guidebook Update”.

For those of you who have updated your TEN WEEKS Guidebook with the 2008 update, please note that the changes to that update are in **bold** below – so you only have to post the **bold** items after the page reference.

**I now recommend that you DO use downloads for banking. In order to be able to do this, however, you will need to make sure that your checking and savings accounts are held in a bank that is set up with Quicken for online downloads. Effective April 1, 2009 Quicken no longer supports data downloads for Quicken 2006, so upgrading to Quicken 2007 is mandatory unless you want to enter all you financial transactions manually. Quicken also has structured the file downloads so you now *must* have your accounts in an institution that has a relationship with Quicken. On account of these changes, I recommend that you change financial institutions if necessary, to be able to do online downloads. It makes all the difference in the world.**
